PROFESSIONAL SUMMARY

ECBA-certified Computer Science graduate with hands on experience in requirement gathering, market and data analysis, and worked across technical, marketing and design teams at a startup. Conducted analysis and created dashboards and worked on strategic planning for process improvement. Built projects with NLP, LLM's, RBAC, and comfortable with API integration.

CORE SKILLS

Reporting & Analytics: Requirements gathering, BRD & SOP documentation, market and data analysis, root-cause & gap analysis, stakeholder coordination, QA reviews, client presentations (through ECBA)
Technical: API (Postman), SQL, Python (ETL fundamentals), JavaScript, HTML/CSS
Tools: Jira, Excel, Power BI, Looker Studio, GA4, Google Tag Manager, HubSpot CRM, Canva.

WORK EXPERIENCE

Digital Marketing Intern - ORNG COFI, Bangalore *Sept 2025 - Feb 2026*

- Gathered requirements from stakeholders and studied client and company vision, mission and SOPs, then **documented SOPs** to align resources and deliverables with client goals.
- Analyzed business and market data and ran **root-cause and gap analysis** on workflow issues to recommend practical improvements.
- Worked in a fast-paced startup across design, marketing and technical functions, acting as the **point of contact between design, technical and sales teams**.
- Tracked SLAs and key metrics, preparing weekly reports and **client presentations** in Excel and Looker Studio; planned content calendars across social platforms.
- *Tools: Excel, Looker Studio, Jira, GTM, Canva, Adobe Illustrator, Confluence*

Digital Marketing Intern – Ether Infotech, Coimbatore *Jan 2024 - Mar 2024*

- Analyzed performance data in **GA4 and Google Tag Manager** to understand how data's are been worked after campaign launch.
- Worked with HubSpot CRM workflows and campaign pipelines to support lead and campaign tracking.
- Contributed planning, execution ideas and input to a Python store-automation module built with a cross-functional team.

Tools: GA4, Google Tag Manager, HubSpot, Python, Google Search Console

PROJECTS

Loan Abandonment Analysis *(Power BI, ETL, BRD)* *2026*

- Analyzed loan application abandonment through a Power BI dashboard to pinpoint drop-off stages and improvement opportunities.
- Authored the **Business Requirements Document (BRD)** and prepared data through ETL pipelines for reliable reporting.

IntelliBoard – AI BI Dashboard *(React, TypeScript, Node.js)* *2025*

- Built a reporting tool with role-based access control (RBAC) and AI-generated summaries that help non-technical users interpret metrics from multiple perspectives. (LLM, NLP used)

SEO Bot Analyzer *(Python, JavaScript)* *2023*

- Developed an SEO crawling and keyword-suggestion tool with actionable recommendations that can be implemented directly.

EDUCATION

B.E. Computer Science and Engineering - SNS College of Technology, Anna University *2022 - 2026*
GPA: 8.7 / 10 | Class topper in Mathematics (97%)
